NOTES FROM THE CRATER.

THE TRIP, "THE CROWNING EXPE-
RIENCE OF A LIFETIME."

Big Round-up of Cattle—Conditions in
Mokuawewe and Kilanea—
Tremendous Rainstorm.

VOLCANO HOUSE,
May 4, 1896.

This hotel has been rather quiet
since the dispersal of the Mauna
Loa party. Dr. Dille, Messrs.
Dodge, Farley and Phillips left
for Hilo on Friday morning to
seek passage in the Likelike or
any other steamer available for
Honolulu. Mr. Monsarrat and
family and Mrs. Graham left for
Kapapala on Saturday. Mr.
Hitchcock has been back and
forth between here and his father's
villa on the Volcano road and
Kapapala, where he went yester-
day.

The following named arrived
on Saturday: Thomas V. Birnie,
Springfield, Mass.; L. A. Moore,
1st sergeant Co. E, N. G. H.; C.
H. Bradford, Arthur F. Wall and
Miss Wilson, Honolulu.

Below are Rev. Dr. Dille's re-
marks on his visit to the volcano,
written in the Volcano House
records:

"May 1, 1896. Reached Vol-
cano House April 26. Went with
the party of thirteen and five
guides to the crater of Mokuaweo-
we, starting from the Volcano
House April 28 at 6 a. m. Re-
turned April 30th, reaching Vol-
cano House at 6:30 p. m.

"The trip was a successful,
though difficult one. The outfit
provided by Mr. Monsarrat was
all that could be desired. The
crater of Mokuawewe is the
grandest sight my eyes ever be-
held, seen as we saw it—the lake
of fire, the great fountains play-
ing continuously, one of them
throwing up a mighty column of
orange-colored flame to a height
of 250 feet.

"I will leave description to the
scientific men of the party, and
will only add such a trip is the
crowning experience of a lifetime.
"Kilauea—Halemaumau—is
quiescent, Madame Pele having
apparently removed her royal court
to the summit of Mauna Loa
which has put on white in honor
of her presence.

"The Volcano House is a splen-
did hotel. Mr. Lee the prince
of good fellows. We leave today
for Honolulu and home per Aus-
tralia May 9.

"ELBERT R. DILLE,
San Francisco."

Although people have been tele-
phoning from other parts of the
island that the signs of eruption
did not seem to be so strong as at
first, there was no diminution in
the intensity of the reflection when
I saw it last two nights ago. Last
night it could not be seen on ac-
count of clouds, and the same con-
dition has existed all of today.

Mr. Birnie and Mr. Wall will
"tempt the dangerous way" with a
party to be organized after the
Kinai arrives, which is expected
to bring Mr. and Mrs. Thurston
and others. Mr. Bradford went
to Hilo on Monday morning.

There was a round-up of cattle
on the Kapapala ranch week-
fore last, when seven thousand
animals were corralled. Ninety
men were engaged in the exciting
work, and Chinese bombs were
used to scare the wild cattle out
of the woods.

An imported horse belonging
to the ranch became fagged out
under a packload, while climbing
the mountain with the volcano
party, and had to be abandoned
to perish.

There was a tremendous down-
pour in Hilo and along the Vol-
cano road last Thursday. Water
ran from one foot to five feet deep
on the streets of the town, and
there was ten feet depth of water
at the bad place on the Volcano
road, where the two elder Messrs.

Hitchcock had a narrow escape
with their lives several years ago.

According to one historian of
the Mauna Loa trip, the BULLETIN
representative was "recovering
slowly." As he wrote his full re-
port of the trip without taking
any rest after the forty miles' rug-
ged ride, you will understand that
he was in a terribly bad condition
and regret that his recovery was
not rapid. Those who are so
clever at diagnosing other people's
cases ought to send in their bills,
unless they are afraid of prosecu-
tion for practicing the physician's
profession without a license.

Halemaumau is emitting vast
volumes of vapors constantly. It
would not be surprising if an
eruption took place any day. The
more recent visitors went down
into the crater yesterday, and the
guide on returning reports an in-
crease of heat.

It is reported that a little girl
was killed at Hilo by the fall of a
pile of lumber on which she was
playing. D. L.

CIRCUIT COURT MATTERS.

The Bowler Divorce Suit Discon-
tinued—Probate and Other Matters.

In the divorce suit of Theresa
Florence Wolf Bowler vs. John
F. Bowler, a discontinuance of the
action was filed this morning
by the plaintiff.

In the estate of Amos P. Jones,
the administratrix, Rachel Jones,
has filed her final account and pe-
tition for the allowance of the
same and discharge.

In the matter of the guardian-
ship of William C. Markham,
Judge Carter has appointed S. K.
Kane as guardian of the property
under \$1500 bonds.

Judge Perry and a jury are still
engaged in the trial of the case of
William Kuhia vs. Ahiena, ad-
ministrator.

What We Inherit

We are not to blame for. We
cannot be held responsible for the
dispositions and tendencies which
we derive from our ancestors, nor
are we responsible for the germs
of disease which may manifest
themselves in our blood as a heri-
tage from former generations.
But we are responsible if we allow
these germs to develop into serious
diseases which will impair our
usefulness and destroy our happi-
ness. We are responsible if we
transmit to our descendants the
disease germs which it is possible
for us to eradicate by the use of
Hood's Sarsaparilla, the one true
blood purifier. This medicine has
power to make rich, red blood and
establish perfect health in place
of disease.

Honolulu's warm climate is
conducive of thirst to a greater
degree than that of a colder zone.
The average business man loses
also, to a degree, the amount of
energy and nervous force common
enough in the bracing air of
American cities. These two phases
of our climate make it more
necessary than elsewhere to stim-
ulate the system with an invigor-
ant. No more healthful or purer
stimulus, or one more delightful
to the palate, can be found, than
Pabst Milwaukee beer. It is a
delicious drink and is constantly
on draught at the Cosmopolitan,
Pacific and the Royal.

Professor P. E. Wolff, who has
been exploring and collecting
ornithological and other specimens
in Fiji and various other islands
of the South Pacific, was a through
passenger on the Mariposa for
Fiji, Samoa and Tonga. Profes-
sor Wolff has for several years
been collecting for the Govern-
ments of France, Italy, Germany
and the United States and is yet
representing them. It was he
who found the ruins of ancient
secret temples in the interior of
Samoa.

The faculty of Princeton Col-
lege has elected Henry Irving
honorary member of the Ameri-
can Whig Society. This is a dis-
tinction seldom conferred, and
doubtless it will be all the more
valued for that reason.

THE NEWS OF HAWAII.

SINCE THE DEPARTURE OF THE
STEAMER MONOWAI

Condensed and Compiled for the Aus-
tralia's Mail Today—The Events
of a Week.

Following is an epitome of
events in the Hawaiian Islands
since the departure of the Monowai
on May 1st:

May 2—News received from
Kauai of a horrible murder com-
mitted on the night of April 29th.
A native woman named Kaula cut
off the head of her 16-months-old
boy with a draw knife. Both the
woman and her husband were
brought to Honolulu where they
have since been adjudged insane
and sent to the asylum.

Chas. Parry, an employe of
Wilder & Co., got two of his fin-
gers crushed in a machine and
amputation was necessary.

The steamer Kinai met with
rough weather off the coast of Ha-
waii on her last trip and had one
of her boats smashed.

The American bark Pactolus,
1585 tons, arrived from Portland
and Astoria. After discharging
about 400 tons of ballast, she will
load sugar for New York or Phil-
adelphia.

The boys of the Kamehameha
schools gave a very successful
open-air concert.

Six more Portuguese were ar-
rested for disturbing the peace
and resisting an officer.

May 3—The barkentine Planter,
Captain Dow, sailed with 15,737
bags of sugar, weighing 1,837,666
lbs, and valued at \$68,206.02.

Sixty thousand dollars worth of
opium, captured by Custom
House officials during the past
year, was towed three miles out to
sea and destroyed by Government
officials.

Countess Wachtmeister deliv-
ered her first lecture on "Death
and After" to a crowded audience.

May 4—The Normal Training
Class celebrated the centenary of
Horace Mann by appropriate ex-
ercises at Y. M. C. A. hall.

The May term of the Circuit
Court opened with a heavy calen-
dar, Judge Perry presiding.

The steamship Australia arrived
at 3 p. m.

Agent Reynolds of the Board of
Health reports 69 deaths for the
month of April in this city.

May 5—The first annual tourna-
ment of the Hawaiian Tennis
Association commenced in this
city.

Judge Perry rendered a de-
cision in the suit of Rudolph
Spreckels vs. Walter M. Giffard.
This is a bill in equity praying
for an injunction to restrain the
defendant as secretary and treas-
urer of the Paauhau Plantation
Company, an Hawaiian corpora-
tion, from cancelling certain cer-
tificates of shares in the said cor-
poration alleged to belong to com-
plainant and to have been by him
pledged to Allen & Lewis, of
Portland, Oregon, or to issuing
new certificates in place thereof,
and further praying that the de-
fendant be ordered and directed
to enter into the books of said cor-
poration that said shares have
been pledged as aforesaid. The
decision recites that the plaintiff
is entitled to the relief prayed for
and a decree is ordered accord-
ingly.

The steamship China arrived
from the Orient at 3:30 p. m.

Antone Masline, an uncle of
Circuit Judge Perry, died of acute
nephritis, aged 56 years.

The four-masted barkentine
Jane L. Stanford arrived, about
60 days from Newcastle with a
cargo of coal.

May 6—Definite news was re-
ceived from the first party which
visited the great volcano at the
summit of Mokuawewe. Daniel
Logan, editor of this paper, was
of the party, and a full account of

the ascent can be found in the
EVENING BULLETIN of May 6th.
The party found a lake of fire
about 1000 by 600 feet, from which
two magnificent fountains of lava
rose to a height of 400 feet. It was
a scene of awful grandeur.

Artesian water has been struck
on the Lahaina plantation, Maui,
at a depth of 65 feet.

At a meeting of the Baseball
League the Kamehameha Alumni
team were admitted. This makes
four clubs represented and some
good games may be expected this
season.

Manager Dillingham escorted
United States Minister Dun and a
party from the steamship China
to Wai'anee and back by special
train.

The bark Mohican arrived, 18
days from San Francisco.

Countess Wachtmeister lectured
on "The Dangers of Hypnotism"
to a large audience.

C. R. McVeigh, one of the
brightest young business men of
the city, died at his residence on
Wilder avenue from the effects of
an operation for tumor, aged 36
years. He was proprietor of the
National Iron Works in this city
and agent of the San Francisco
brass foundry of Garrett & Co.

May 7—Owing to the pre-
valence of the plague in China
the Board of Health resolved to
notify steamship agents at in-
fected Asiatic ports that steerage pas-
sengers will not be allowed to
land at Honolulu until further
orders from this Government.

The steamship Mariposa arriv-
ed from San Francisco and left
for the Colonies at 7 p. m. Mrs.
Robert Louis Stevenson, Lloyd
Osbourne and wife and Mrs. Isabel
Strong left by her for their home
in Samoa.

The bark Melrose cleared for
Royal Roads in ballast.

ABOUT THE REGATTA.

George Rose Will Row for the Hea-
lanis in Both Races.

Some of the papers seem to get
their information, relative to the
regatta, from peculiar sources.
They have a singular faculty for
twisting things round so that a fact
is hardly recognizable after they
get through with it. The Healanis
have not lost anyone from their
junior crew recently, but they have
lost two good men from the seniors,
Atkinson and Charlie Walker.
Nevertheless, the Healanis are
keeping a stiff upper lip and both
junior and senior races will be
closely contested. George Rose will
pull in both of the Healanis crews,
occupying his regular place in
the Juniors and acting as
Walker's substitute in the Senior
race. It is not at all unlikely,
despite their crippled condition,
that the Healanis may come out
winner. Dr. Russell has positive-
ly forbidden Walker from rowing
and Dr. Herbert's orders are just
as positive relative to Atkinson's
participating in the races.

Taken all round the regatta will
be the sporting event of the year,
and will amply repay the public
for their attendance. There will
be in addition to the regular
events, a five-oared whale boat
race between a prison guard crew
and a crew composed of members
of the police force.

May the best men win in every
case.

Parties for Mokuawewe.

Julian Monsarratt writes to J.
W. Chase, the Volcano tourist
agent, that hereafter parties for
the summit volcano by either side
of the mountain will be made up
only at the Volcano House. Not
less than five will be taken at any
one time and parties must be pre-
pared to make the round trip in
one day, as the guides refuse to
remain at the crater overnight
and the danger of losing animals
is too great. Arrangements for
parties can be made with J. W.
Chase.

Be on to yourself and ask for
Seattle beer on draft and in bottles
at the Criterion Saloon.
